## COSTALAB CHORUSLAB STEREO

The CostaLab ChorusLab STEREO is a upgraded and enhanced version of our Choruslab pedal. We introduced a STEREO output stage for much more deep and immersive sound experience. In plus, we have reduced the dimensions box instead to easy install in Your pedalboards.

In ordet to make all this possible, we have make a four layer high grade pcb with concentred inside all our experience an technology.

This Chours pedal is appreciated by guitarists and bassists for the depth and the warmth of its timbre, in addition to the great intelligibility that, typically in the circuits where the signal is forced into long and complex paths, is missing. Its sound takes inspiration from the typical sound of the American tradition that first used chorus effect it resumes this tradition with a soft, deep, enveloping and well defined sound. With STEREO output You can use a stereophonic-phase effects with 180 degree of phase shift between thwo channels. In mono mode, we chan choice the pase (L) or counterphase (R) output.

The CostaLab ChorusLab STEREO is equipped with a mix control, as well as the classic Speed and Depth controls.

The three knobs allow you to find the best setting for each situation. The CostaLab ChorusLab STEREO is equipped with a mechanical "true bypass" switching system and with an anti-pop filter too.

The unit is powered by 9-12 DC volts and is connected by the classic DC 2.1 mm plug with negative pole-center. The current draw is less than 20 mA.

**Dimensions:** 60x111x30mm excluding knobs and jacks.
