

CONGRATULATIONS!

And Welcome to our family! You now own a professional-grade product, used by renowned artists world-wide! Every COSTALAB product is hand-built in Italy with the finest components, for maximum performance and outstanding reliability. We check and test every single pedal before it reaches your home to be sure it works as it's designed for and that is free from defects of any kind.

WARRANTY

COSTALAB warrants the product to be free from defects in manufacturing for a period of two (2) years from the date of purchase.

The Warranty is only valid if the product is used as recommended and as it's intended. Proof of ownership may be required in the form of a purchase receipt.

EXCLUSIONS

The warranty does not cover damages caused by misuse, wrong power supply, abuse, unauthorized

modification, improper storage, lightning, or natural disasters.

The warranty does not cover knobs, rubber feet or any wearable component.

The warranty does not cover any shipping cost for repairing.

LIMIT OF LIABILITY

Costalab will not be held liable for any damage caused by the failure of this product. Damages excluded include, but are not limited to, the following: lost profits, damage to other equipment or inability to use this product.

By using the product, the user accepts all terms herein.

HOW TO OBTAIN SERVICE

contact COSTALAB through our website at www.costalab.com or contact any authorized dealer (full list on our website).

COSTALAB FOUNDER AND BUILDER

COSTALAB GOOD DEVIL

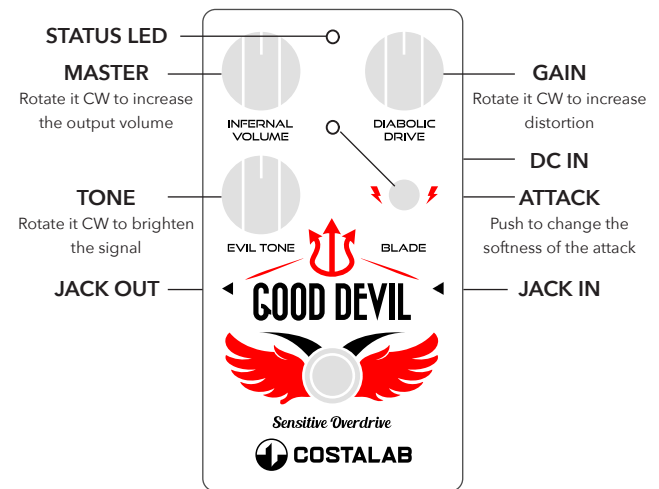

The Costalab Good Devil is an original design overdrive based on a Op-Amp with ten-times specification values over the standard Mosfet competitors.

The result is an outstanding low noise tone at any level and an unbelievable gain reserve that trespasses in distortion territory.

The Good Devil works as a real tube amp in terms on dynamic and saturation, with the "Blade" knob that helps you shape the tone even more, changing attack and compression of the note like switching between a Valve and a Solid State rectifier.

In conjunction with a distortion pedal, like the Costalab Bad Angel, the Good Devil will help provide infinite singing sustain, complex and expressive notes and well defined fast solos will be at your fingertips.

The Good Devil, like all the Costalab line-up, is fitted with True bypass switching and an anti-pop filter for transparent smooth operation.

External power supply: it is possible to power the pedal with an external center-negative 9 volt DC power supply with standard 2.1mm DC connector. Current draw is less than 20 mA.

We suggest to use our filtered and stabilized **ENERGIA** or **POWER FACTORY** power supplies or an equivalent quality one. Using a different power supply may generate unwanted noise and may damage the product. When an external power supply is plugged, the battery is excluded.

Dimensions: 60x111x30mm excluding knobs and jacks.
